The 48th edition of the leading clinical reference for the treatment of infectious diseases and anti-infectious drug information will be released in late winter or early spring. Useful in everyday practice and as a component of your body's antimicrobial management program, the Sanford Guide provides valuable guidance in the age of antibiotic resistance. Popular with doctors, pharmacists, physician assistants, nurse professionals, and other clinicians, Sanford's guide to antimicrobial therapy provides information that is appropriate, concise, and reliable. Available in printed form in pocket size, spiral bound and large library versions. Sanford's guide to antimicrobial therapy for mobile app includes all content from the print version, as well as expanded digital-only content, multi-term search functionality, calculators, tables, customizable bookmarks, and more! For extensive coverage of hepatitis and

HIV/AIDS, see the Sanford Guide Collection app. Annual subscriptions include continuous content updates based on the latest available data. Sanford Guide content is stored on your device, so you'll still have access even when you're working in areas without an internet connection. Subscriptions purchased in the Sanford Guide Store can be used on both iOS Android mobile devices, while subscriptions purchased from the Apple App Store or Google Play will only work on the platform associated with that store. A new antimicrobial therapy seminar is coming soon, but in the meantime, take a look at this Sanford Guide Collection seminar. The best application for infectious diseases. The best of the best. Great for ID rounds and daily rounds with the med group. Doses are on point, and there's an awesome table of dose adjustments available. I love that you can easily search through their system. It's worth every penny. - iOS mobile user app Syndromes / Diseases Organized by the site of infection Pathogens Bacterial Fungal Mycobacterial Parasitic Viral Retrovirus (HIV) Anti-infective drugs Antibacterial antifungals Antimycobacterial Antiparasitic Antiparasitic Anti-Retroic Prevention Immunization Surgical Procedures Dental Procedures Post-exposure Prophylaxis Transplantation Tables and Tools Activity Spectra (bacterial, fungal, viral) Calculators for Vancomycin AUC24, creatinine clearance, colistin administration, GFR, and more paediatric administration (>=28 days) Kidney pregnancy risk categories Use substances during lactation Poll calculators (creatinine clearance, accounting diseases, etc.) Administration tools (obesity, continuous/prolonged infusion, desensitization) Numerous tables and tools tools
